

When we moved to Pendleton a year ago, I was really happy to find that K-Love is being broadcast here in this community on a local FM station (93.3)! I think if a LPFM station is given priority over the current FM translator service it would hurt the community because a LOT of people listen to K-Love who would not then be able to. K-Love provides a no-commercial, positive and encouraging program to the community while other stations might be negative (shock jock) and discouraging. It would be a public injustice to allow that to happen! Please re-consider your proposal to expand the LPFM service. I don't want to lose K-Love! Thanks for your time.
